FROM :

25X1A

1. You requested a review of the attached memorandum for accuracy and recommendation of changes.

2. I presume that the blank places will be filled in with the correct numbers.

3. In paragraph 5 I do not understand the first sentence as why the letter G. However, this may be clear to those involved.

25X1A

4. We have not been associated with any part of the [REDACTED] equipment program for [REDACTED] and consequently cannot make any recommendations regarding the effectiveness of this equipment in providing the degree of protection which is strongly inferred throughout the memorandum.

25X1A

5. In paragraph 7 it is proposed that the [REDACTED] would be useful in the quality ELINT measurements. While this is true, the present ELINT equipment scheduled for installation is not adequate for making these measurements.
